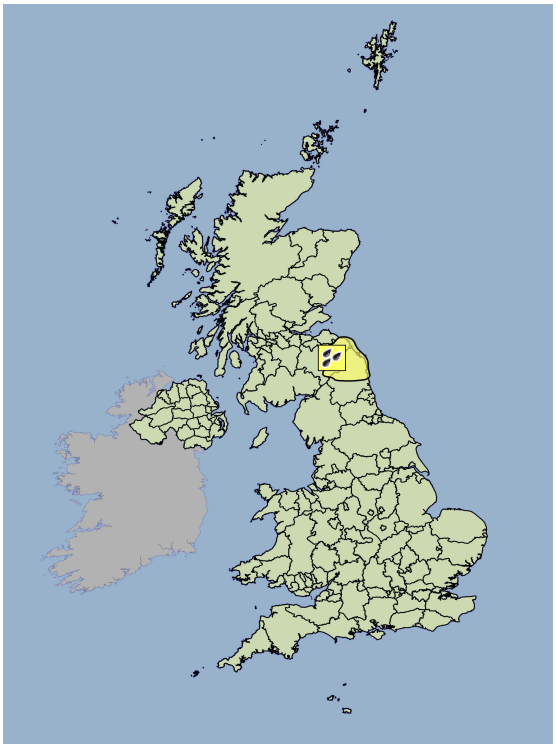
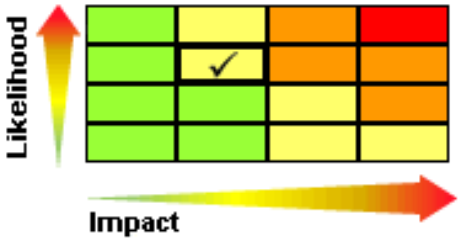
# National Severe Weather Warning Service





**Chief Forecasters Assessment**
A frontal system will affect northeast England and southeast Scotland during today, becoming more active again during the evening. Rainfall totals through this period are expected to reach 10-20 mm widely with 30 mm possible over the Cheviots.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **11:30 on Mon, 04th Jan 2016** until **23:55 on Mon, 04th Jan 2016**

Further spells of rain are likely today across Northumberland and parts of the Borders, possibly turning heavier again during the evening. Please be aware of the risk of localised flooding, particularly this evening.

This is an update to cease this warning at the end of today, although a separate warning will be issued for Tuesday.

**For more details please go to:**
